# Kiss It Goodbye

Orange 9mm

You make it seem so easy
Never know how you got so far
You might think that I'm crazy to stand in your way
Shove you back to the background

A lot of people get lazy
You walk in and you dig their graves
I kinda rather get crazy
'Cuz I ain't gonna fall and I ain't gonna back down

You can say what you say
You won't make a change
You can say what you say
You still play your games

You're just K I S S I N G
Kiss it goodbye
You're gonna fade away
K I L L I N G
Kiss it goodbye
Because you're killing me

K I S S I N G
Kiss it goodbye
You're gonna fade away
K I L L I N G
Kiss it goodbye
Because you're killing me

If I had my own way now
I would've never let it get so far
So now I feel kinda jaded
'Cuz I've been here before

And it seems that somehow I let myself get sedated
And thrown back into those arms
With a hold so jagged I start to lose myself
But I ain't gonna get smashed down

You can say what you say
You won't make a change
You can say what you say
You still play your games

You're just K I S S I N G
Kiss it goodbye
You're gonna fade away
K I L L I N G
Kiss it goodbye
Because you're killing me

K I S S I N G
Kiss it goodbye
You're gonna fade away
K I L L I N G
Kiss it goodbye
Because you're killing me

Won't you wanna come and do that?
Won't you wanna come and do that?
Won't you wanna come and see that?

Won't you wanna come and do that?
Won't you wanna come and do that?
You come and do that, I come and do this

Now won't would you wanna come and see that?
Now won't you wanna come and see that?
You come and see that, I come and see this

You're just K I S S I N G
Kiss it goodbye
You're gonna fade away
K I L L I N G
Kiss it goodbye
Because you're killing me

K I S S I N G
Kiss it goodbye
You're gonna fade away
K I L L I N G
Kiss it goodbye
Because you're killing me

K I S S I N G
Kiss it goodbye
You're gonna fade away
K I L L I N G
Kiss it goodbye
Because you're killing me

K I S S I N G
Kiss it goodbye
You're gonna fade away
K I L L I N G
Kiss it goodbye
Because you're killing me
