

## The smile

Orange Blue

I haven't got a doubt this time  
I just want you to be mine  
every day is friday  
since the day that you crossed my way  
and a part of you is always  
in that smile that's in my face  
Kathrin you fill my days

no one can imagine  
how long a day can be  
without the one who gives me reason  
to keep myself busy  
even though I know  
that it won't make the time go fast  
to see your face at last

it sometimes won't be easy  
and maybe you'll be freezing  
when I am not around to keep you warm  
but the distance to my body  
is not the distance to my heart  
that's why we aren't really far apart

you should not think there's something wrong  
if I told you I'm in love  
it's not that complicated  
I have got no other faces  
what I said is what I need is I love you  
I guess I'm just in love with you
