Shine

Orange Goblin

Dream on, dream on baby, let it go Fly so high, fly so high baby, let it go You light my soul, you light my soul baby, let it go I will shine, you will shine baby, let it go We will shine baby, let it go

When the revelation comes, beyond the frozen sun We must hide inside each other's moonlight, baby Then when it's time to shine, it's written in your eyes And we can live inside each other's daydreams maybe

You wanna ride with me now, you wanna fly so high With eyes like holes in the sun, you're gonna touch the sky You wanna walk in the stars and tie yourself to the moon You know your future is comin' and it's comin' soon

You want the druids to take you in their magic hands And send your soul far beyond the walls of neverlands And when we wake on the shores that bring the dawn of time You know the light in your eyes, it will forever shine

Oh yeah, alright, shine on

I am the sun that will shine forever in your heart I am the stars that will shine for you when we're apart And when we wake on the shores that bring the dawn of time You know the light in your eyes, it will forever shine

Oh yeah, alright, shine on everyone

Shine on, shine on everyone Come on and shine
