Orchid

By the people, for the people
without and despite us
this money run, partirachial lie
should be shattered
one nation under rich white men
I will never put my hand over my heart
and pledge my allegiance to this
I'd fight against you, sooner than for you
policing the world
when we can't trust our own police
shirked responsibility at any cost
as long as its at no cost to you
you owe us
we pay your debts everyday
