

Angels War

Orden Ogan

For the truth
Down on earth
Pray for glory
Fight all the time
And it's true
We can not deny
The second war
Against our christ

As the first of all he was embraced by the light
And was loved more than all of the following
God's image in the mist of a new day
Still was only one of God's creations

And so fall into the pit of time
Some saw deliverance in his words
Fell on their knees so blind
Wings from high above overthrew a damn throne
Blood was spilled in hell for god and now he's gone

It feels like heaven starts to burn
Nightmare and day unite
What is this for? A senseless war
That all brothers have to fight, they have to fight

For the truth
Down on earth
Pray for glory
Fight all the time
And it's true
We can not deny
The second war
Against our christ
