

# Deaf Among The Blind

Orden Ogan

Welcome home, where all clear thoughts get lost in mist  
It crumbles, our little place in the abyss  
Where blind men - are shouting  
...and where the deaf men show how

To find a path out of the darkness

We're gone forever  
Lost in twilight  
Never coming back  
Deaf among the blind  
We're bringing  
Silence to the black

You built this giant stage to show them what to do  
They scream into your ear but nothing's getting through  
If I just could tell you  
That they will never know how

To find a path out of the darkness

We're gone forever  
Lost in twilight  
Never coming back  
Deaf among the blind  
We're bringing  
Silence to the black

We're gone forever  
Lost in twilight  
Never coming back  
Deaf among the blind  
We're bringing  
Silence to the black
