

Looking for those dwelling here in poverty and crime
I'm offering a way to end your sorrows for all time
All you have to do is leave the ones you love behind
I promise at the place we go, a better life to find

Behind the gates of Ravenhead
Halls of evil, dreams of dread
Only the touch of the dead
Waits on the steps of Ravenhead
Waits on the steps of Ravenhead

You know you're growing weaker as you're passing by the lake
You must arrive before midnight, whatever it will take
See the abbey on the ledge and the ravens in the sky
This my children of the ruins, it's not your time to die
(Not yet, stay with me)

Behind the gates of Ravenhead
Halls of evil, dreams of dread
Only the touch of the dead
Waits on the steps of Ravenhead
Waits on the steps of Ravenhead

You crawl into the empty halls' enclosing haze of sleep
It's reaping for millennia, your souls it longs to keep
Immured alive in solid walls, this place never stops to grow
The secret locked in Ravenhead nobody'll ever know
(Nobody'll ever know)

Behind the gates of Ravenhead
Halls of evil, dreams of dread
Only the touch of the dead
Waits on the steps of Ravenhead
Waits on the steps of Ravenhead
