

Too Soon

Orden Ogan

This is autumn's end
Oh, how the leaves now fall
All this time we spent here
I can not recall
I am always freezing
It's so cold outside
I miss you here
Day and night

I'd fly to the moon and back
To the sun and the stars for you
I'd die just to bring you back
You have gone from my side too soon

This is winter's end
The ice begins to melt
Flowers will start blooming
Can't remember how it felt
When we were still alive
It's so cold outside
I miss you here
In the night

I'd fly to the moon and back
To the sun and the stars for you
I'd die just to bring you back
You have gone from my side too soon
