

Y, U, Id Ant My

Orden Ogan

What are you doing in my head? what are you supposed to do?

I didn't invite you, not even for a while... I didn't give you

My advice to feel like home in there

Through misty fields I enter the night, a man who walks alone

Over green fields I make my way... step by step, forever

Why are you staying in my head? who do you think you are?

You don't realize where you really are... you haven't even

Seen me once in all your life

Through misty fields I enter the night, a man who walks alone

Over green fields I make my way... step by step, forever

Rain keeps falling...

Rain keeps falling,

...makes the way unwalkable

...for the silhouette in the distance

...and his friend the fog

...disguises the path
