

Blue Smile

Oren Lavie

Black clouds in battleships
Are covering the sky
The sky a purple cry
The philharmonic sigh

The sky would disappear
The sky would disappear
You know it's somewhere near
Today you wouldn't share the sky
Is gone

Goodbye
Blue sky
You made me happy for a while
And how you gave me
Your blue smile

A bird is often heard
And hardly ever seen
A sound that's sweet and round
And lingering between...

A sailboat by a pier
The sky that disappeared
The sky that disappeared
You know it's somewhere near
Today you wouldn't share the sky
It is gone
Say goodbye

Goodbye
Blue sky
You made me happy for a while
And how you gave me
Your blue smile

And how you gave me
Your blue smile
Blue sky
You made me happy for a while
And how you gave me
Your blue smile

Blue sky
You made me happy for a while
Don't keep me waiting
My blue sky
Goodbye
