We keep it koming
We keep it koming, huh
We keep it koming
We keep it koming, uhh
And when it's time to Organize
We stick together through the times
With the attitude like Miles
We keep it koming
We keep it koming
We keep it koming, huh
We keep it koming
We keep it koming, uhh
And when it's time to Organize
We stick together through the times
With the attitude like Miles
We keep it koming
I be flipping the scripts, ripping through hoods coming equipped
Lifts out of my lyrics, sippin' forties in a whip
Organized, rise, raise up the level, surprise
Niggaz, watch Prince open your eyes when I deliver
Give a honeydip a wink, thick chocolate bitch
Switch up the pace, kick me, the digits later you can taste
The bass thumps for months, entrapped in the lab
With mad blunts creating formulas that you can grab
I escape the clutches of wackness, I'm like a mattress
Lay it down for the South Side, Sounds of Blackness
Uh, ohh, I keep it koming stunning, you're running
Through states to make pace, gunning you down with the drumming
That rakes in the dough
Oh, my God, times are hard so I gotta flow
Spark up the L, I excel over the stress
Crushing the competition that I stomp from east to west
Rest assured, we will deliver the goods to the hoods
For the youth, this is proof we should
Well, Organize got the bomb hard to stay calm
Forming like Voltron and then attacking at dawn
We keep it koming
We keep it koming, huh
We keep it koming
We keep it koming, uhh
And when it's time to Organize
We stick together through the times
With the attitude like Miles
We keep it koming

When I'm fed up, I hold my head instead of me teasing Yo, ooh, ooh, child, things are gonna get easier

In my mind and in my soul
I can take control of a beat whenever I roll

Stroll up the block, 40-dog cocked back In my knapsack is a uzi-wop, black whassup Spreading like malaria, but much scarier Migrating in the whole tri-state area

Without a doubt, my niggaz never go out They rock, braids, and fades, and baldies And blow up and blew out throughout The entire night I'm peepin' you and

Your entire crew out, what's that all about?
I suppose I be steppin' to hoes when
I'm masking overconfidence 'cause I know my new shit
Is gonna go platinum, I'm mathin' 'em

Light skin ones inside of a Maxima
On a passenger side, this is what I'm asking her
Hey, baby, you look so good
Why you driving through our neighborhood?

If raps I wrote were cookies, I bet you'd bite a chip Rookie, fetch a product 'cause it took a long time to ignite A f**king style from the end, back to the beginning Niggaz is winning, Prince, niggaz is winning

Keep the fat drumming, running up your back Black with stacks of facts for the tracks that you can react to

We keep it koming We keep it koming, huh We keep it koming We keep it koming, uhh

And when it's time to Organize
We stick together through the times
With the attitude like Miles
We keep it koming

We be the bread and butter making, breaking crown facts Around back, cracking gunner sound, heart starts To stutter when the bass pounds butter like this Rumbling CD crispy, no hiss

Rush you like Russell, make you flip like Knipsie Wilson negative but can't see, but maybe one Organized, take the favor rated is my tip To keep my peers motivated with funk, only we rip see

For years tears shed it, but never let it Mislead a nigga figure that I'd be runnin' dogs, you know

We keep it koming We keep it koming, huh We keep it koming We keep it koming, uhh

And when it's time to Organize
We stick together through the times
With the attitude like Miles
We keep it koming
