

I caught their sparkle from the runway  
Such a fool for the amazon  
Nothing's wrong but it's just not right  
The three of us in the naked light  
No chance for psychotic solutions  
Lost in this three-way dimension  
Imagine you as me and I'll tell you  
Just what i'm thinking  
That it feels like you, feels like I, feels like we do  
And it feels like feels like  
It feels like we do  
And everyone's daze is on  
Look what you've done  
You give yourself away for nothing  
(feels like you, feels like i, feels like we do)  
And give it all away for nothing  
(feels like you, feels like i, feels like we do)  
When will you escape dramatica  
Gifts of pleasure you recieved  
Everything you wanted from me  
Chemical abduction, restricted as me and I'll tell you  
Just what was on my mind that night  
'cause it feels like you, feels like I, feels like we do  
What's on your mind
