

## Fiction (Dreams in Digital)

Orgy

she's lost in coma where it's beautiful  
intoxicated from the deep sleep, deep sleep  
do you wonder what it's like  
living in a permanent imagination?  
sleeping to escape reality, but you like it like that

guilty by design  
she's nothing more then fiction.  
she dreams in digital,  
cause it's better then nothing.  
now that control is gone,  
it seems unreal,  
she's dreaming in digital.  
she dreams in digital.

and your pixel army can't save you now  
my finger's on the kill switch  
i remember i used to compose your dreams  
control your dreams  
and don't be afraid to expose yourself  
before i shut you down  
you made some changes since the virus caught you sleeping
