

## How Does It Feel

Orianthi

You got a lotta girls that you call your friends  
You're always joking baby  
at least you pretend  
But it don't mean a thing  
I know that it's true  
Someone's told me something about Geena and you

Now that I'm leaving baby  
How does it feel  
Now that I'm leaving baby  
How does it feel

I don't care about your money baby  
I don't care about your cars  
As you can see for yourself  
I'm a rock and roll star  
And while you read your little black book  
Busy making plans  
I'm out playing every night  
I gotta million fans

Now that I'm leaving baby  
How does it feel  
Now that I'm leaving baby  
How does it feel
