

# Now And Never

Orianthi

Drivin' down this high way  
I've got no where to go  
There's no one waiting on me  
No messages on my phone

Coz I've got my guitar on the back seat  
Now I'm setting down this road  
There's nothing more that I need  
Why do I feel alone

Coz I'll be alright all I need is a sign  
It's a long road  
But I'm hoping things would just get better  
Well I need to find  
With everything on the line  
I got to make a change  
It's now or never

I'm moving at my own pace  
Not a chance of slowing down  
To get to where I'm going  
There no time to wait around  
Alright

Coz I'll be alright all I need is a sign  
It's a long road  
But I'm hoping things would just get better  
Well I need to find  
Where everything on the line  
I got to make a change  
It's now or never

I can't look a back  
At what could have been  
You just got to keep on moving on  
You can't think about  
What should have been  
What doesn't break you  
Makes you stronger in the end  
I know  
Well I know  
Yeah...  
Well I know

Coz I'll be alright all I need is a sign  
It's a long road  
But I'm hoping things would just get better  
Well I need to find  
With everything on the line  
I got to make a change  
It's now or never

Coz I'll be alright all I need is a sign  
It's a long road  
But I'm hoping things would just get better  
Well I need to find  
With everything on the line

I got to make a change  
It's now or never

Coz I'll be alright all I need is a sign  
It's a long road  
But I'm hoping things would just get better  
Well I need to find  
Where everything on the line  
I got to make a change  
It's now or never
