

Ubiquitous

Origin

One, in all, things, everywhere
One, presence, exists, omnipresent
Haunt, disturb, dwell, in us all
Look, onward, to, ubiquity

Epoch of all time
Instant judgement finds
Face to face with gods
Everywhere at once

Ubiquitous beings, unnamed lords
That watch over our lives, and all worlds that
Exist, through their blessings of life and death
Behold the universe, take and give from
Matter that builds over time, from nothingness
Chemical reactions, not random lost
Building blocks, infinite, ways to create
Compelled to conjure us, and our worlds - End our worlds

Attuned to prime beings, endless
Prepare our judgement, coming soon

Ubiquitous beings, unnamed lords
That come to our lives, and all minds that
Exist through their blessings of life and death
Behold the universe, take and give from matter - Matters

Intimate with nothing, sickness
Ever present judgement, always here

Intrepid and fearless, beings
Everywhere at all times, seeing
Omnipresent beings, faceless
Interspatial meaning, nameless
