

# Get Back

Orla Gartland

I could spend my whole life figuring out what you're running from,  
(Oh, Oh, Oh)  
I know it's weird i think i admire your self destruction,  
(Oh, Oh, Oh)  
But i'm entranced,  
I should forget but i can't sugarcoat this pain,

Running wild, making plans,  
In the taxi holding hands,  
We can never get back,  
We can never get that back,  
All our secrets have merged,  
It's a whole other world,  
We can never get back,  
We can never get that back,  
No

I don't think i was looking for anyone i could understand,  
(Oh, Oh, Oh)  
How could i know if it was bad until i felt poison in my hand?  
(Oh, Oh, Oh)  
Guess i got too close,  
It's what you feared the most,  
You try and sugarcoat the pain,

Running wild, making plans,  
In the taxi holding hands,  
We can never get back,  
We can never get that back,  
All our secrets have merged,  
It's a whole other world,  
We can never get back,  
We can never get that back,  
No

I loved your words,  
But then i learned,  
Sometimes they don't mean what they say,  
And it took you walking away,  
Just to learn that i'm not afraid to get my heart broken,

Running wild, making plans,  
In the taxi holding hands,  
We can never get back,  
We can never get that back,  
All our secrets have merged,  
It's a whole other world,  
We can never get back,  
We can never get that back,  
No
