

Spring Fever

Orleans

It can happen any time of year
But lately it's whenever you're near
Just the sound of your name
Brings pleasure and pain
And the reason is very clear

I got spring fever
And they say that it can go to your head
Spring fever
I get dizzy just lying in bed
Spring fever
Won't you please stay by me?
Don't deny me
'Cause I never needed loving more

Well, I used to be a quiet guy (Used to be a quiet guy)
Sensible and dignified (Sensible and dignified)
Now that's all changed
I'm a bit deranged
But you know that it's justified

'Cause I got spring fever (Got spring fever)
They say that it can go to your head
Spring fever (Spring fever)
I get dizzy just lying in bed
Spring fever
Darling, please stay by me
Don't deny me
'Cause I never needed loving more

Spring's the time to start anew
And make your wildest dreams come true
You can help it all begin
Open up, darling, take me in

Spring fever (Got spring fever)
They say that it can go to your head
Spring fever (Got spring fever)
I get dizzy just lying in bed
Spring fever
Darling, please stay by me
Don't deny me
'Cause I never needed loving more

Got spring fever
Got spring fever
Spring fever (Got spring fever)
Spring fever (Got spring fever)
Spring fever (Got spring fever)
Spring fever (Got spring fever)
