

A Neverending Way

Orphaned Land

When summer's gone and winter's past
It seems like a never-ending way
And thinking of what I have to say
It seems like a never-ending way
I am within you now, with my sinful cry
I am within you, now one am I
Perish the love, perish your love
When the sunfilled summer comes to love
It seems like a never-ending way
It comes to us like a snow-white dove
It seems like a never-ending way
I am within you now with my lonely cry
I am within you now 'till the time we die
I am within you now 'till the time we perish the love
Perish your love
