

Flawless Belief

Orphaned Land

As ashes slowly fall I turn to heed my inner call
To feel the gap within my soul
I must find the one inside the whole
Flawless belief, is what my eyes see
A shining figure here before me
A divine idol we all plead to
I'm down on my knees I worship you with awe
I'm down on my knees my belief forever strong
And I call out to you my lord of light
Watch my faith how it glows
God await that I know
My praise for him I shall bestow...
And sing it, praise you lord, he is the lord
In all pas centuries I've lived
False believers lived in eternal lie

We live our life - amen
Giving love to the end
Shadows rise and fall
At God's divine call
The answer to my pleas
Let all madness cease
This will be done
