## The Kiss of Babylon

## **Orphaned Land**

Twisted ways blackened nights Sin upon Sin, gone is the light Doom shall befall them all A downward spiral they shall fall The Three, all this they see As they try to pass God's decree Worshiping the gods That demand lives and sacrifice None but the blood of infants will suffice Fallen sparrows fall as one into a grave They are the souls of living men That could not be saved. "Walking the land we see The sins of flesh and spirit flow Bodies entwined a serpent's Lethal kiss of venom is bestowed Our lord watches them fall -He stands above you all" "Son slaying father A Cain's mark upon us all Babylon's rising, cast from heaven We see the angles fall When will the heavens be alight The seasons will re-unite" Hebrew lyrics
