

Broken Watch

Orson

I just don't know what to do,
I just don't work right without you.
Get busted up need fixing up now baby,
My sense has stopped making sense no wait that don't make no sense
i get thrown off by my own balance baby.
These city lights only shine down for you,
this place is just too big without you.
And i just don't know what it is about you,
i just know that i'm no good without you.

Girl you got know everytime you go out the door that is not alright.
Girl you got to know everytime you go out the door that is not alright.
It feels like everything stops just an old broken watch when you
ur not around.

My jokes ain't funny no more they weren't that funny before the
joke is out i'm the joker baby.
And i forget how to dress no one around to impress my dressings
messy at best now baby.
These city lights only shine down for you,
this place is just too big without you.
And i just don't know what it is about you,
i just know i'm no good without you.

Girl you got to now everytime you go out the door that is not alright.
Girl you got to know everytime you go out the door that is not alright.
It feels like everything stops just an old broken watch when you
ur not around
