Otep

All my life  
I was told that I was evil  
All my life  
I've been living illegal  
I'm the one  
That they love to hate  
Cause I'm half  
Mark twain  
And I'm half  
Jesse James  
Words are my weapons  
To blow them away  
More disciples with rifles  
Than the nra

They're playing checkers  
I'm playing chess

A defiant mental giant  
I'm never the less  
When I trample examples  
Of artificial success  
They try to bring me down  
But I'm coming up  
And it's...

Never enough  
Never enough

Round & round & round  
Straight to the bottom  
Yeah it takes me down  
Round & round & round  
Dooooooooown  
Round & round & round  
Stuck in my head  
I can't escape that sound  
Round & round & round  
Down motherfucker  
Yeah it takes me...  
DOWN

If the people are sheep  
Don't blame the shepherd  
If knowledge is cheap  
I should be an investor  
You're the common in the knowledge  
That I already know  
Just a common in the sentence  
That I already wrote  
It's like history's written in invisible ink  
So they can own the throne  
And everything'll repeat  
In the kingdom of lies  
The best that money can buy  
I was born to destroy  
But I live to defy

Never enough  
Never enough

Round & round & round  
Straight to the bottom  
Yeah it takes me down  
Round & round & round  
Doooooown  
Round & round & round  
Stuck in my head  
I can't escape that sound  
Round & round & round  
Down motherfucker  
Yeah it takes me  
DOWN

I'm the devil you know  
And I'm the devil you don't  
Cause you can't command  
What you can't control  
No  
You can't command  
What you can't control  
No  
You can't command  
What you can't control

Round & round & round  
Straight to the bottom  
Yeah it takes me  
Round & round & round  
Doooooown  
Round & round & round  
Stuck in my head  
I can't escape that sound  
Round & round & round  
Doooooown  
Round & round & round  
I was born to destroy  
But I live to defy  
Round & round & round  
Down motherfucker  
Yeah it takes me...
