

# Run for Cover

Otep

You have 7 more seconds to decipher your life  
Before my tongue becomes a blade & your brain gets sliced  
I warned you before I'm addicted to war  
I was preying for armageddon on the day I was born

Incite & ignite  
Cried my muse  
Elevating IQ's as I enter the room

It's elemental  
Defying gravity with these  
Lyrical miracles & street philosophies

It's the chosen child  
Destroying idols like a pentium

Processor, throw these rocks atcha  
I be the queen weaving dreams with supreme lectures

Infect ya, lyrically dissect ya  
I got control of your soul so no gods can protect ya

"you betcha" !  
We can set ya free best believe that this tribe of mystery  
Was born and bred to conceive

Brilliant galaxies of mind expanding poetry  
Enemies know it's me, armed with mental weaponry

Ain't no testin' me, the tribe comes prepared to get live  
You're just a drone to the hive, ain't no way you'll survive

Ravage  
Vanquish  
Mangle  
Destroy

RUN FOR COVER  
RUN FOR COVER

NO ONE GETS OUT ALIVE

RUN FOR COVER  
RUN FOR COVER

NO ONE GETS OUT ALIVE

Ripped at the seams  
I destroy galaxies

Word becomes flesh  
I bring nations to its knees

So feel the blast as this broad casts  
Out any doubt that real rhymes last

Its the voice of the apocalypse

The god of war

With Osiri's esophagus  
An omnivore

Take you higher than the Krsna consciousness  
From gotham to metropolis the lesser gods eradicates the obvious

We fight for all of us so get up off the ground  
Weapon systems armed it's about to go down

IT'S FOR THE CROWN !

Ravage  
Vanquish  
Mangle  
Destroy

RUN FOR COVER  
RUN FOR COVER

NO ONE GETS OUT ALIVE

RUN FOR COVER  
RUN FOR COVER

NO ONE GETS OUT ALIVE

Craven !

There will be blood  
On my fists  
On your face  
On the ground around us

This is pain  
Have to taste  
I'm addicted to the rush

Of bruises & bloodstains  
Dark god in my veins

I will hate it all away  
No, nothing will remain

The enemy is me !  
You weak, ineffectual plebe !

Even jesus worship me,  
I bow down to none

Your little light is like a candle  
Trying to outshine the sun

RUN FOR COVER  
RUN FOR COVER

NO ONE GETS OUT ALIVE

Inside my mind  
Where heaven & hell collide  
You won't survive  
Suck !

& swallow your pride  
Suck !  
& swallow pride

No one gets out alive

The enemy is me  
The enemy is me
