

# Shattered Pieces

Otep

And this is how the world died (2x)  
I can hear you judging me  
I'll hear your confession  
I found the best piece of me  
Kneel down  
Alone  
Shivering in the dark  
(Place your face between my thighs)  
Three centimeters tall  
And talk to god  
Eating it's heart  
But you will not feast on me today  
This is how the world died  
Who will slay this thing  
I forgive you  
Who will play the butcher and  
End my suffering  
I forgive you  
I fucked the minds of the masses with the fingers of liberty  
This is not a threat  
This is not  
A threat  
I'm not perfect  
I'm not a beauty queen I'm just me  
I'm just me  
We are all  
Prisoners here  
All shapes and sizes  
I've screamed for all the women I've never been but hoped I would be  
I'm proud of who I am  
Forever  
Chasing the sun  
I'm proud of me  
She bites her trembling mind  
It began as all tragedies do  
Forgive me (2x)  
With pain and deception  
If you'll be the paper I'll be the pen  
This is it  
I've tasted hell  
And it tastes just like you

My final plea  
No one is coming to save me  
No one is going to change things  
The answers will not drop from the sky  
I will not one day wake with a different disguise  
No  
The only solution  
Is revolution  
Art is war  
Fight (2x)  
The odds were always against me  
Lose weight  
Clearly think  
I exist I am broken (2x)  
If god is my father

Then I am an orphan  
I am broken  
I am not a mistake (2x)  
My ancestry is a ghost story  
I'm a prophecy  
My love life is a crime scene  
I'm an omen  
My self-esteem is a string of unsolved murders  
The radio is brainwashing me filling my head with these  
Self conspiracies  
I am an emotional nightmare  
I can't hide the pain inside  
Builder of my own mythology  
Just tell me  
You're listening
