

Meet Me In The Dark

Otherwise

Meet me in the dark, I'll take you down
Close your eyes to see, I'll show you how
Everything you've known is broken now
Silencing the screams you heard so loud
(Screams you heard so loud)

I believe the shadows breath
With bloodshot eyes & sharpened teeth
So walk with me...

Meet me in the dark, I'll take you down
Let me in so I can break you out
Don't be scared it's right where we belong
We belong, we the strong
Meet me in the dark
(Meet me in the dark)

I thought you knew me better
Here comes the underdog
Watch as the lowly peasant
Becomes the alpha-dog

I believe the shadows breathe
With bloodshot eyes & sharpened teeth
So walk with me...

Meet me in the dark, I'll take you down
Let me in so I can break you out
Don't be scared it's right where we belong
We belong, we the strong
Meet me in the dark

I believe the shadows breathe
With bloodshot eyes& sharpened teeth
So walk with me...

Meet me in the dark, I'll take you down
Let me in so I can break you out
Don't be scared it's right where we belong
We belong, we the strong
Meet me in the dark
Meet me in the dark
Meet me in the dark
Meet me in the dark
Meet me in the...
