

## Never Say

Otherwise

I'm holding back the strength I lack to live like this  
But I could die by your side and come alive with every kiss  
If I decide to spend the night with you  
Please don't wake me up if it's too good to be true

And I promise I won't say goodbye  
As long as I believe that there is hope left in your eyes  
And when you feel the time has come for me to let you fly  
I will wait for you till the day I die  
I'll never say goodbye

To find freedom in my prison, I needed this  
Another song, I could be wrong  
With all these chances that I've missed  
If I decide to spend my life with you  
Please don't lie to me if you don't feel it too

And I promise I won't say goodbye  
As long as I believe that there is hope left in your eyes  
And when you feel the time has come for me to let you fly  
I will wait for you till the day I die  
I'll never say goodbye

I will be right here beside you  
I'll firewalk with you when your spirit burns  
I will give my life to lift you  
Up above the sickness of the world  
THE SICKNESS OF THE WORLD

I promise I won't say goodbye (don't say, don't say)  
As long as I believe that there is hope left in your eyes  
And when you feel the time has come for me to let you fly  
I will wait for you till the day I die (till the day I die)  
Yes, I will wait for you till the day I die  
I'll never say goodbye  
I'll never say goodbye  
I'll never say goodbye
