

This Game Is Over

Ott

Thinking over days gone by
Thinking of the past and I wonder why
Why did all the love we have just die,
Waving all the memories goodbye now
thought this love of ours would stay
Never saw the day you might walk away, never want to see me
Look me in the eye and say you're leaving
This is wrong wrong, everything we had is gone
Nothing left to carry on, tell me why this game is over
So goodbye this game is over
Can I make you change your mind
Think of all the memories we'll leave behind
Want you to be here with me forgive
Everything I've done and let me live now, nothing more that I can do
Telling me we're through, can't believe it's true
We should be together, Now you're gonna leave me for another
This is wrong wrong, everything we had is gone
Nothing left to carry on, tell me why this game is over
So goodbye this game is over
Baby tell me why tell me why, baby tell me why tell me why
Back in time before I met you thought I'd never find the one
Then you came and took control, made your heart my only goal
Now I am trying to forget you, I can see that you are gone
And I'll never make it home, you possess my very soul
You possess my very soul
Tell me why this game is over, so goodbye this game is over
Baby tell me why tell me why, baby tell me why tell me why
This is wrong wrong, everything we had is gone
Nothing left to carry on, tell me why this game is over
So goodbye this game is over
