

Better Than Here

Our Lady Peace

I looked
I looked up to the sky
Your face was drawn in black and white
Tonight we're stuck inside a lie
The fear is we won't get out alive
The stink is in the air
The air is getting thin

Where you goin
As fast as you can run
And where you goin
You hide behind the sun
Stay down low
Stay down where you are
And where you goin
Is is better than here?

The truth... . how we turned into a joke
And it's truth I'd give anything to hold
Tonight, tonight I stay
But you, you slip away

Where you goin
As fast as you can run
And where you goin
You hide behind the sun
Stay down low
Stay down where you are
And where you goin
Don't let them come after you

I trip trip trip in vain
I like to get away
You like it like you do
I like to be with you
I like to live up there
But I wake up and I
I wake up and I
I wake up and I'm here
Tonight I am stuck here
And tomorrow I,
I disappear

And where you goin
As fast as you can run
And where you goin
You hide behind the sun
Stay down low
And stay down where you are
Cause it's better there
And it's better than we thought
