

Wipe That Smile Off Your Face

Our Lady Peace

It's just the two of us
A silver cross
And some strength that you won't believe
See I'm not your friend
And I won't pretend
That I've come here for peace
Well I'm not afraid
I'm gonna make you pay
I'm gonna wipe that smile off your face

And this is war ...
And I'm gonna wipe that smile off your face

The time has come
To drop the bomb
On all the pain you've been selling
See I don't like you
Or your attitude
Or the company that you keep

And this is war ...
And I'm gonna wipe that smile off your face
And this is war ...
And I'm gonna wipe that smile off your face

It's just the two of us
A silver cross
And some strength that you won't believe
Well I'm not afraid
I'm gonna make you pay
I'm gonna wipe that smile off your face

It's war ...
And I'm gonna wipe that smile off your face
And this is war ...
And I'm gonna wipe that smile off your face, oh ...

And wipe that smile
And wipe that smile
I'm gonna wipe that smile off your face
