

Conspiracy

Our Last Night

Hypnotizing, you had us under your spell
Synchronizing with all your co-conspirators
You've been hiding these skeletons for so many years
Hear the sirens they should be coming for you

I dare you to share with the world
Exactly what you've done
I dare you to

Come clean and tell me, tell me about
Your conspiracy, your conspiracy
Come clean and tell me, tell me about
Your conspiracy, your conspiracy

Mesmerizing, you had us under control
Pulverizing the lives of the innocent
How does your conscience deal with the mess you've made?
How would your loved ones feel about the deals you've made?

I dare you to share with the world
Exactly what you've done
I dare you to

Come clean and tell me, tell me about
Your conspiracy, your conspiracy
Come clean and tell me, tell me about
Your conspiracy, your conspiracy

It's time to point the finger at you
It's time to point the finger at you

Come clean and tell me, tell me about
Your conspiracy, your conspiracy
Come clean and tell me, tell me about
Your conspiracy, your conspiracy
