

## Diamonds

## Our Last Night

Like diamonds, like diamonds in the rough  
We're shining, we're shining through the mud  
Soon enough we'll see the sunlight  
Rise up and finally breathe light  
Like diamonds, like diamonds in the rough  
Whoah, whoah

Running through their nose  
With no sense of smell  
Thinking we'll stay, stay, stay  
Hidden in our shells  
But we're, we're waiting for our time  
We've been waiting for our time, yeah!  
Whoah, whoah  
We don't need fame, we don't need wealth  
We use our passion as our medicine to bring us health  
We'll get to the top, with or without  
The poison that flies out of their mouth

Like diamonds, like diamonds in the rough  
We're shining, we're shining through the mud  
Soon enough we'll see the sunlight  
Rise up and finally breathe light  
Like diamonds, like diamonds in the rough  
Whoah, whoah

Out in the shadows we saw the sun  
Now the tables have turned it's our time to shine  
A little patience, it goes far  
We've been dancing, in the dark, yeah!  
A clearer sky hides behind all the dark clouds

Like diamonds, like diamonds in the rough  
We're shining, we're shining through the mud  
Soon enough we'll see the sunlight  
Rise up and finally breathe light  
Like diamonds, like diamonds in the rough  
Whoah, whoah

The shore that breaks the wave  
The earth above the grave  
There are some things that just don't change  
Dream to stay awake and live another day  
We try to learn from our mistakes

Like diamonds, like diamonds in the rough  
We're shining, we're shining through the mud  
Soon enough we'll see the sunlight  
Rise up and finally breathe light  
Like diamonds, like diamonds in the rough  
Whoah, whoah
