## Our Last Night

They will lock you up and throw away the key  
Where no one will ever find you  
You were sent to destroy the world  
You were meant to be the end of hope for all mankind

I've been wasting away  
I let you get away so cleanly  
Without a trace, without a sound  
By now my hope for you has fledged me  
They will dig a hole and bury you

I wasted away so many days in hell  
I wasted away so many days in hell with you  
You were sent to destroy the world  
You were meant to be the end of hope for all mankind  
I've wasted away so many days in knowing you

I let you get away so cleanly  
Without a trace, without a sound  
By now my hope for you has fledged me

I was a walking dead man living the truth  
With a liar by my side  
I was a walking dead man living the truth  
With a liar by my side

I let you get away so cleanly  
Without a trace, without a sound  
By now my hope for you has fledged me

I let you get away so cleanly  
Without a trace, without a sound  
By now my hope for you has fledged me

I let you get away, without a sound  
You were sent to destroy the world.
