

I've Never Felt This Way

Our Last Night

I've never felt this way before
I've never felt this way before

Head in the clouds
can't break me now
I Jumped off this plane

Cause it was going down
My parachute
I've got nothing left to lose
The wind blows through my hair
And leaves you
Broken and bruised

I've never felt this way before
I've never felt this way before

Since you've been gone
I've felt so free
To be the person
that i want to be

I've never felt this way before

Feet on the ground
I was lost
Now I'm found
I took cover from the rain
Cause it was pouring down

You held me back
And now I'm on the right track
You couldn't stop me
If you wanted
Cause i'm never coming back

I've never felt this way before
I've never felt this way before

Since you've been gone
I've felt so free
To be the person
That i want to be

I've never felt this way before

I spent all my time
depending on you
But after all these fucking years
I am finally through with you
This is the new me
I'm breaking free
From your chains that held me
So take a look at me now

This is the now me
I'm breaking free

From your chains that held me
And I'm standing proud
Nothing can stop me

I've never felt this way before
I've never felt this way before

Since you've been gone
I've felt so free
To be the person
That i want to be

I've never felt this way before
