

## Mouth Machine Gun

### Our Last Night

They tried to tell me to stay away  
But my mind didn't end up working that way  
I thought I saw this coming,  
But it made no sense  
The lines were glowing with evidence

Tell me tell me,  
Cuz I need to know  
Where will I get oxygen if these trees won't grow?

They tried to show me that there's always a waste  
But I depended on it all fading away  
Sometimes it's easier to see through different eyes  
The sight will uncover what's between the lines

Tell me tell me,  
Cuz I need to know  
Where will I get oxygen if these trees won't grow?  
My lungs need it now

The things they think they know  
Could change everything  
The things they think they know  
Could turn this all around

Tell me tell me,  
Cuz I need to know  
Where will I get oxygen if these trees won't grow?  
My lungs need it now  
Tell me tell me,  
Cuz I need to know (need to know)  
Where will I get oxygen if these trees won't grow?  
My lungs need it now

The things they think they know  
Could change everything  
The things they think they know  
Could turn this all around
