

## Get Up

Ours

Get up  
Stop breathing yourself up  
These are the things that you know will just hurt  
Don't let em  
Weaken your heart  
You've been here before and you swore that you would

Get up  
Begin to start  
These are the things that you want to remember  
Remember

Why  
Tell me why  
Must I wait around to find out that I'm dying  
By wasting time  
Man you should have seen her  
Man you should have come  
Maybe when you wake you'll sleep because  
Get up

Get up  
Stop breathing yourself up  
These are the things that you know will just hurt  
Don't let em  
Weaken your heart  
You've been here before and you swore that you would

Get up  
Begin to start  
These are the things that you want to remember  
Remember  
Remember

Get up  
Man you should have seen her  
The weight rolled off her back  
Gave so much love  
Without even trying  
Man you should have seen her  
Was beautiful like rain  
To weather all the world  
And stay the same  
Stay the same

Man you would have loved  
Man you would have loved  
Get up  
... And the more you love you'll love
