```
Get up
Stop breathing yourself up
These are the things that you know will just hurt
Don't let em
Weaken your heart
You've been here before and you swore that you would
Get up
Begin to start
These are the things that you want to remember
Remember
Why
Tell me why
Must I wait around to find out that I'm dying
By wasting time
Man you should have seen her
Man you should have come
Maybe when you wake you'll sleep because
Get up
Get up
Stop breathing yourself up
These are the things that you know will just hurt
Don't let em
Weaken your heart
You've been here before and you swore that you would
Get up
Begin to start
These are the things that you want to remember
Remember
Remember
Get up
Man you should have seen her
The weight rolled off her back
Gave so much love
Without even trying
Man you should have seen her
Was beautiful like rain
To weather all the world
And stay the same
Stay the same
Man you would have loved
Man you would have loved
Get up
```

... And the more you love you'll love
