

## Brave

### Out Of The Grey

You're the perfect love, you cast away my fear  
No more shadows in the mirror  
I go looking back, I always see you there  
Shining through my darkest hour

And you make me brave, you make me strong  
I'm not afraid, you've been here all along  
In my weakness, you're my strength  
And my song, you make me brave

Lord, I know you go before me on this road  
Who could ever be against me?  
Every step I take, I know I'm not alone  
You're my courage for the journey

And you make me brave, you make me strong  
I'm not afraid, you've been here all along  
In my weakness, you're my strength  
And my song, you make me brave

Living in the never knowing what's around the bend  
Even though I know what happens in the very end  
Gladly, I can face the ever-changing sky  
And it's coming clear that you're coming near and it makes me b  
rave

You make me brave, you make me strong  
I'm not afraid, you've been here all along  
In my weakness, you're my strength  
And my song

You make me brave  
I'm not afraid, you've been here all along  
In my weakness, you're my strength  
And my song, you make me, make me, make me  
You make me brave
