

## Hope In Sight

Out Of The Grey

Peace comes and goes  
Oh but lately, Your peace flows  
And when I focus on You  
Your love comes into view  
There is nothing between us as far as I can see

There's hope in sight, hope in sight  
If seeing is believing, then call me a believer  
Hope in sight, there's hope in sight  
Now that I can see you through the eyes of faith

Peace, when it goes  
Oh it leaves me with just one hope  
No matter how near or how far  
Your light is the brightest star  
There is hope at both ends of the telescope tonight

There's hope in sight, hope in sight  
If seeing is believing, then call me a believer  
Hope in sight, there's hope in sight  
Now that I can see you through the eyes, the eyes of faith

I will look up  
I will lift up my head and go on  
I will call on the One who has carried me through  
Will carry me until the end, there's hope  
There's hope in sight
