

Gangsta Like Crazy

Outlandish

Arab men are radical terrorists
Immigrants all play
And must be sent away period
Black men are criminals
Veiled women are oppressed
White men are racists
And free speech is irrelevant

If you believe in any of these statements
You are an idiot
I repeat an idiot
I don't know who knocked the Twin towers down
But in different times
I wonder if a bomb falls in the desert will it make a sound
Graffiti walls in Palistan growing parallel
With olive trees and caterpillars straight out of hell
Sister that scarf is disintegration
You not pretending, pretty amazing
Blacks up the line up the prisons
Faster than southies and outies
And every single one of them comes out a sheer
And suddenly you're married
'Cause you're nice stated islam
You already know that the president is one

All the flags in the world

It is kinda crazy
Is it kinda crazy
And let the beat drop
Yeah baby we so crazy
Where I come from they got them brooms for the ladies
When you catch more than a dire
When you kinda shady

.....
While I ride another out blink classic
I turned up the big sharks
With all the poetry of passion
Crazy and everything
From the time I took Pamela Anderson
Big beats no beers
All part of the fashion
