In the name of Makaveli The Don, the killa motherfuckin Kadafi

No matter now I answer then, feel my stripes You keep poppin shit, I'll pin my knights \*dying\* At your grow dega Smokin on your drow Flavor Spit some pimp shit

Then dip with your old neighbor (come on)
And if you really, feel some type of way about it

Run up in your hood, then I'll shoot my fuckin way about it

We live stool pigeons smokin in salt water \*pigeon\*

Only my lord and our crew know what happened to him

I'm sick of these crews, actin like they've been payin dues I put the heat to em, tell them niggaz kick off they shoes What would you do in the position when it's us against you?

That Teflon mother fucker, can your head take two?

Shut the fuck up 'fore your luck's up

What you gonna do when your shit's up

Besides get dissed on nigga, and pistol-whipped up

Tied up, mouth taped up, layed out, and hit up

Leave you in pray, gotta give you a napkin to wipe that shit up

After the fact, holdin in time, shit up for lit up

We ownin enough, them rollers is bust

Murder made easy for dummies
Before you pull the trigger
Hit his pockets, take all his money
First you gotta be smart
Check his race and his bag
To see if he's strapped
And hit him once in the face
And that's that

Well where you at then?
