

One of Two Ways

Outline in Color

Left at the end of everything
And everyone is waiting for this life to pull me under
Your audience awaits
My downfall
I never had a chance, so why am I still fighting this
It's hard to play this part
When you're so far under
Everyone's watching and I can't see through the words that you call truth
Always running
The ties we bind
This time you're so far,
This time you're so far gone

Everyone is watching now
She'll never get the best of me
Pass the torch to everyone
Face to face with your salvation

Defined as lost, we call find home
Did you really think I'd give you it all
I should have never crossed you
No one will ever keep me on the ground

Lets put an end
Lets put an end to this

'Said I wouldn't put up a fight, But I can't just let this go
'Said I wouldn't put up a fight, But I can't just let this go

My side, what we're thinking of for now isn't right
My life, What reflection of for love isn't right

I never thought that things would end this way
I never got why things would end this way
I never thought that things would end this way
I never got why things would end this way
