

Where Did December Go

Over It

I heard every word you said last night
When we talked about vicarious goodbyes
And i've shut you out of it all because i didn't want to care
And after all these tears had swelled in my eyes
I wonder how you stand to call me y our friend
Perhaps i need convincing so im listening
Tell me where did december go?
Where did december go?
I wont make up my mind why can't i make it clear?
I'll wait until i've closed my eyes
Though i've dreamed that one at thousand times
If you were mine i'd make it snow outside like memories
