

## Wrong Way

## Over It

Wrong way on a one way,  
Street lights luminate this night.  
When we're here side by side,  
Each moment breathes new life.  
So get right, all that you like.  
Cause I know we share more than smiles,  
And all this down-time gives us reason to confide  
Everything I can fit onto one line.

Watch the sun set over wasted time  
Wish upon a California sky  
I think you know this time  
I'm through with wasted time  
And it may take one last night  
What goes around comes back again in time.

Should I whisper our secret  
It ain't hard to see your heart would know.  
Its never easy to forget mistakes and afford some room to grow.  
In a heartbeat, on the heels of each soft word to break the quiet.  
I remember a season I forgot...and it fills me up with fire.  
I'll never fear the night, never fear the night with you.
