

## Hometown Boy

## Over the Rhine

Hey love, what do you say  
We get outta here today  
You ain't found your footing yet  
But someday you're going to fly  
My hometown boy

Cars up on blocks  
The neighborhood's gone to hell  
You wonder if the whole world's breakin' down  
But you feel somethin' you feel the need to run  
But you don't know why my hometown boy

No love  
No sloe gin back porch nights for you  
We've got work to do  
White trash blowin' down the street

Just pipe dreams on paper  
But starting tomorrow  
We've gotta try  
Me and my hometown boy
