

# We're Gonna Pull Through

## Over the Rhine

You take your own sweet time, order us a glass of wine  
And wink at all the rich folks in the room  
We're gonna pull through, we're gonna pull through

We've been reckless, we've been good  
Doing most of things we should  
But the picture is much bigger than we knew  
And we're gonna pull through, we're gonna pull through

There's no such thing as cool  
And we're gonna pull through

I'd rather feel your heat on a wicked winter day  
Than watch a holiday parade with dancers and balloons  
We're gonna pull through

You hold me just the same way, Levon would play  
And "The Weight" is my favorite song  
We're gonna pull through, we're gonna pull through

Breaking our own rules  
We're gonna pull through

Maybe, sorta, kinda, if I really had to say  
Something good is on its way  
And we're gonna pull through, we're gonna pull through  
We're gonna pull through, we're gonna pull through
