

## 80 Cycles

### Overkill

I'm just a little nervous, just a little back-off who you know  
I don't think they deserve us as they sit back, back-  
off, here we go  
I don't care if you love me, I don't care it's about just who you  
blow  
I don't have all the answers, I just want to know-

How low can you go? How low can you go?

It's just a lot of crosstalk, I don't think they listen anyway  
I got hit in the crosswalk; best be careful, back up what you say  
I know you don't love me, but I know just exactly what you show  
I don't want all the answers, I just want to know-

How low can you go? How low can you go?

Eighty cycles hummin' like a big twin comin'  
Eighty cycles comin', I know

How low can you go? Slow...

Listen! Bottom out, discount  
80 cycles goin' south, goin' wherever I go  
Kick start, motormount, 80 cycles in your mouth  
80 cycles comin' I know  
Go to! Live free, got gas  
80 cycles in your ass, lower than I wanna go  
Die free, sacrifice, 80 cycles pay the price  
80 cycles comin' I know  
Once more! Your move, buckshot  
80 cycles slingshot, one thing I wanna know  
Bad move, dog food, 80 cycles too rude  
How low, how low, how low can you go.?.

80 cycles runnin' like a big train comin'  
80 cycles runnin', I know

How low can you go.?.
