Endless War

Overkill

Come faster than the speed of light
Slow going the forgiving night
I'm a soldier in an endless war
Chained down to the money whore

I'm counting my days
Yea jaded – oh, I'm getting sicker
I'm going astray
Yea faded – oh I'm feeling sicker

First – last and all in between
Lets give them more hell then they've ever seen
Give them something to remember
Give them how and why and what your living for
First – last and all in between
The endless war

Eyes dancing to a krankin' fit
Blood spillin' in the heart I'm hit
Lord knows I can't remember when
I'll be up before you count to ten
Uncounting my days
Yea jaded – oh, I'm getting sicker
I'm going astray
Yea faded – oh I'm feeling sicker

Oh yeah, give me the dream, give me the all right
Make it a laser beam, spectacular spotlight
Brighter than the sun on a summer day
A wind to chase my clouds away
Oh yeah give me the dream
Make it be all right
Oh yeah give me a shot, set me a fire
Burning like the sun on a metal cage
A wind that fans the flames of rage
Oh yeah give me a shot, set me a fire
Oh yeah give me the dream

Come faster than the speed of dead
Slow going unforgiving red
I'm a soldier in the endless war
Unchained from the endless gore
I'm counting my days
Yea jaded – oh, I'm getting sicker
I'm going astray
Yea faded – oh I'm feeling sicker
