

## Hammerhead

Overkill

Feeling the pain as it rips through my brain  
Twisting whats left of my mind  
Tearing the same, this blood burning flame  
Decaying all it can find  
Banging your head, stuck in the dread  
Leaving the posers behind  
Powers you see, the power you need  
Nerves and bones we grind

Hammer! Hammerhead  
Hammer! Hammerhead

Knocked to the floor, left wanting more  
Scars decorate your face  
Playing the game, your never the same  
The heat is melting this place  
Emotion and fire!!, you never tire  
Running a death metal race  
Knife in the back, guitar heart attack  
Murder, rest my case

Hammer! Hammerhead  
Hammer! Hammerhead

No one can stop, our way to the top  
No one can get in the way  
Necksnapping force, taking its course  
Keeping the dogs at bay  
Nailed to the wall, giving your all  
We know that you ain't dead  
I know your name, I know why you came  
You're a fucking hammerhead

Hammer! Hammerhead  
Hammer! Hammerhead  
Hammer! Hammerhead  
Hammer! Hammer!
