

## Head First

## Overkill

I push to the left, you pull to the right  
It's a stand off, gainin' no ground  
Outta the dark and into the lights  
It's a breakthrough startin' with sound  
I can't forget the look on your face:  
In shock, startin' to sweat  
All wet make a bet! It hasn't even started yet  
But I got a nickel that says it will!

~Head first! Head first! Head first!~  
You'll compromise, you'll let us in  
You'll spread 'em wide, we're divin' in  
Head first! ~Head first!~

Climb on the horse and start to ride slow curves  
Swingin' the bat up down the front and side to side  
Code blue - we need it stat  
I got the reason that makes you go  
Mid air, suspended animation  
Layin' down on the rug, start it with a little tug  
And I got a nickel that sez you will!

~Head first! Head first! Head first!~  
You'll compromise, you'll let us in  
You'll spread 'em wide, we're divin' in  
Head first! ~Head first!~

It all starts with a kiss of death  
Move on, down to ya knees  
In head first take a deep breath down there  
So at ease it all ends with an all out dive!  
This time I think ya do  
Say you will say ya won't; I don't care if ya don't  
But I got a nickel that sez you do!

~Head first! Head first! Head first!~  
You'll compromise, you'll let us in  
You'll spread 'em wide, we're divin' in  
Head first! ~Head first!~
